92% to 97%

Battling Fires across the County and State

NUMBER OF FIRES SDFD DEPLOYED TO IN 2020

SDFD personnel responded to out-of-city incidents (most involved multiple personnel). All were wildfires except one which was a hurricane.

SDFD personnel participated in out-of-city strike teams. This includes six that were within our county.

More than just battling fires and conducting rescues

There's more to the San Diego Fire-Rescue Department than fighting fires. For example, the **Community Emergency Response Team (CERT)** trains citizen volunteers to become a vital link to safety in a disaster.

The **Community Risk Reduction Division**, headed by a Deputy Fire Chief/ Fire Marshal, is one of the Department's most diverse in the various services it offers. It conducts **more than 20,000** annual inspections and issues fire code permits, develops safety policies and guidelines for residents and businesses.

More than 80% of the emergency calls the Department responds to are medical aids. The emergency medical services provided to the citizens of San Diego is a vital part of the mission of the Fire-Rescue Department.

Lifeguards

San Diego Fire-Rescue isn't just focused on battling fires, they also help keep our beaches clean and save lives.

546
CLIFF RESCUES
